"All you can eat" Feeding house

Instructions No. 2608

Difficulty: Beginner

Working time: 4 Hours

Give nature's birds a treat and make an "all you can eat" bird house. With the design and inviting colours, you can watch all kinds of birds feeding.

Design bird house

First paint the bird house, the 6 wooden olives, the 4 wooden spools and a breakfast board with VBS craft paint. Then glue a bark disc on each of the 4 yarn spools.

Next, shorten the wooden sticks with the scissors and glue them to the roof of the bird house with the craft glue. When everything has dried, you can paint it.

When everything is dry, glue the wooden olives under the bird house. Then glue the house in the middle of the breakfast board. Then glue the spools of yarn to the left and right of the feed house to suggest chairs. As a penultimate step, you can write on two more wooden sticks with the Posca marker, outline them with the Micron and glue them to the roof with craft glue.

Finally, paint the roof, the outside and the breakfast board with VBS Acrylic Varnish.

Must Have

VBS Bird feeding house for hanging

Depth: 14.5 cm
Width: 17 cm
Height: 15 cm
Material: Raw wood, Plastic

10,95 €
