Working time: 45 Minutes

They are cute, not the fastest and often hang on branches - right, we are talking about sloths. Especially in summer the relaxed animals could be seen on any surface. But also in winter and at Christmas, sloths are a trend topic. We have made our cute window pictures from both **Paper** as well as with **Window Fantasy** colors. Both are great to do together with children in the pre-Christmas period.

Window pictures from Paper

First of all, print out the free **motif template** and transfer the motifs **to** the corresponding clay boxes using **graphite paper**. Cut out everything and glue the individual parts with **Handicraft glue** together. For the Christmas balls you punch stars in different sizes with a **Motif Punch** off. Stick the stars on the balls and label them with a white **Marker**. Punch a hole in the top of the ball with a hole punch and insert a **Ribbon** on. Hang the finished ones on

Christmas Balls the branch and glue the sloths on

Cut small pieces of from **double-sideAdhesive taped** and stick the adhesive strips to the back of the branch. Now you can attach your paper decoration to the window.

Window picture with Window Fantasy

Print out the **second template** in the size you want. Lay out **Lamp foil** over the template or slide the sheet into a transparent cover. Start by tracing the outlines with the black outline paint. The drying time is 2 hours on average, but depends on the thickness of the drawn line

You can then color the inner surfaces**.** Once you are satisfied with the result, let the paint dry for at least 24 hours. Now you can carefully remove the motif from the film and stick it to smooth surfaces such as windows, mirrors or tiles. The practical thing about Window Fantasy pictures is that the motifs can easily be removed from the surface and replaced with a new picture.
