We have created these beautiful gift boxes for you **as a** file for the Silhouette Cameo. They are ideal for small gifts or as decorative objects.

Our beautiful houses are great to decorate and give away. You can fill the small houses with cookies or small gifts. The presentee will be thrilled and happy about the gift boxes, which he can then use as beautiful decorative objects.

The motive templates "Giftboxes houses" in this manual can be downloaded as normal PDF download or as

plotter template. Altogether we provide you with two gift boxes in the form of houses.

For the plotter version, please download the DXF files and set your Silhouette Cameo to "cardboard" and "cut". Set the dotted fold lines to "cardboard" and "scoring" under the second setting option

If you do not have a plotter machine, you can of course download the templates as a PDF file and transfer them to your desired carton. Afterwards you can cut them out with a cutter knife.

Then fold the house in the places marked with the dotted lines on the templates and glue it together. Use a nice Ribbon one to tie the houses together.
