advent calendar Crystals

Instructions No. 2024

Difficulty: Beginner

Working time: 4 Hours

One Advent Calendar always makes the pre-Christmas season something very special. It becomes even more beautiful when it is Advent Calendar homemade. Both young and old are happy about that. This noble-looking Advent Calendar, can be Stencil, easily realized thanks to a practical one.

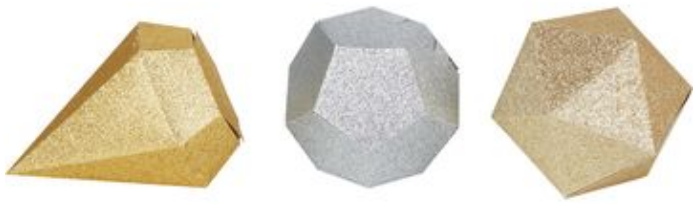

For the noble **Advent Calendar** in **Crystal-Optics**, you first transfer **the shape onto** different papers with the help of the "**crystals Stencil "**. We have used **glitter paper** in different colours and **photo cardboard** in black and white.

With a **folding leg** you can follow the folding lines. Now glue the sides of the crystal together with **double-sided Adhesive tape**glue. For the glitter paper you have to **fix** the sides with some hot glue

Now glue the **Advent numbers** and fill the crystals with small gifts, treats or lovely messages. Place it Advent Calendar on a decorative bowl filled with **diamond snow.** For that certain something you can also **arrange** a LED light chain.
