Lamps with Decopatch

Instructions No. 2277

Difficulty: Beginner

Working time: 3 Hours

Our **lanterns** create a beautiful atmosphere. Whether in your garden or on the balcony - the lanterns give a beautiful light and are an eye-catcher. Through your selected papers, they become individual and can be designed entirely according to your wishes. The **Décoptach technique** is a beautiful and simple crafting technique here that gives great results.

This is how the beautiful lanterns are made:

Tear your chosen **Décopatch papers** into small pieces. Brush the areas of the lanterns that are to be covered with **Paperpatch glue**. Pick up the pieces of paper with the brush and stick them onto the lanterns. Brush another layer of glue over the pieces. Repeat the above steps until the lanterns are decorated according to your wishes. You can combine the papers with other papers and the papers can also be positioned on top of each other.

Now wind the tassels using the **tassel winder**. String two beads at a time and knot them to the lantern holder. For the hanging, tie a piece of golden crochet thread to the top of the holder.

To make it easier to get the **tea lights** into the lanterns, detach the holder from the top of the lanterns. Place the tea light and put the holder back into the holes at the top of the lantern.
