Give your decoration a very special charm with the Easy Rust effect. In these instructions we show you how to create letters in Rust-look in no time at all.

New becomes old:

To create the **"HOME" decoration** you need the Easy **Rust paste in the** colours **Rusty Brown** and **Rusty Red** and the **Easy Rust Liquid**. Through the combination of the different colour shades, you get the **typical Rust-optical effect.**

Step-by-step to the rusty decorations

1. With the help of a large brush **or** sponge, apply **the** dark **Rust paste in the** colour shade **Rusty Brown** on the letters in a large area. Allow the paint to dry thoroughly. The drying time can be accelerated by using a **hot air device**

2. Now apply a **second layer of** the **Rust paste** in the shade **Rusty Red** and let them dry as well

3. To achieve the **typical Rust-look**, put some **Easy Rust Liquid** in a bowl, dab **and wipe** the liquid along the edges. Let everything dry well.

Finish

For the final finishing touches, attach the **Jute yarn** and the **keys** by means of **double-sided Adhesive tape.** Now your new **rusty look** decoration is perfect!
