Advent calendar house made of wood

Instructions No. 924

Difficulty: Beginner

Make someone happy and shorten their waiting time until Christmas Eve. This lovingly decorated little house with the little refinements offers you with the little drawers space for loving little things. The shutters increase the excitement and ensure that no one secretly gets the idea to nibble on everything before..

And it's as simple as this:

Prime the front and side parts in white, as well as the embossing foil. Paint the front and back roof, the chimney and the back of the calendar Aubergine on. Paint the ridge, roof sides and door knobs in red. The shutters inside are primed in dark green

The calendar boxes can be coloured according to your wishes. You can wipe over the edges in the contrasting colours, so you can distinguish yourself well from each other. As soon as everything is dry, the numbers are glued

on.

To decorate, stick the motif with the notes above the door onto the house. The side parts are designed with the motives of the other Napkin . You also stick some motifs on the stamping foil and cut them out. With the embossing tool you can trace and emphasize the contours on the special mat before you stick these elements decoratively on the calendar doors.

This idea is timelessly beautiful!
