Advent candle arrangement

Instructions No. 2048

Difficulty: Beginner

Working time: 1 hour

Advent, Advent a little light is burning. With our **Advent flower arrangement** you can ring in the Advent season in style. With paint, concrete and some branches you create this beautiful arrangement. It looks fantastic on the windowsill, on the chest of drawers or on the table.

This is how you design the Advent arrangement:

Paint the **wooden box** in your desired colours. We have chosen **Handicraft paint** in Stone Grey and Maya Stardust. When the paint has dried, stick the numbers on

Next, paint the tealight glasses **on the** upper edge and the candle sockets with Stardust. You will need about 4 coats as the surfaces are very smooth. Always let each layer dry well before applying the next

Mix the **concrete** with water according to the packaging and fill approx. ¾ of the tea light glasses with it. Allow the concrete to dry slightly and then insert the spouts into the mass. Let it dry for about 24 hours

Place a **wax tile** in each of the **grommets and** place the candles. Decorate with berry picks and moss and, if necessary, glue on with some hot glue.

Article information:

Article number	Article name	Qty
491143	VBS Candle sockets for rod candles	1
