# Advent wreath with natural materials

**Instructions No. 2875**

Difficulty: Beginner

Working time: 1 hour

Advent is a special time of the year when we look forward to the upcoming Christmas and get in the mood for cosy hours in the company of our loved ones. A homemade Advent wreath is not only a beautiful decoration, but also a symbol of anticipation. In this tutorial, we will show you how to create a traditional Advent wreath with simple steps and natural materials.

The **willow wreath "Willow"** serves as the basis. Stick the **tealight holders** into the wreath at equal intervals and fix them in place with a little **hot glue** if necessary. This guarantees a secure hold.

Choose different **dried flowers and blossoms** from the potpourri set and arrange them on the wreath as you wish. Attach everything with **hot glue** and add a few **stars scatter decoration**.

You have a classic, beautiful wreath for the Advent season.
