Wreath with garden miniatures

Instructions No. 3221

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Are you looking for a creative way to spice up your living space or give your door a personal touch? Then try making a **wreath with flowers** and various **miniature decorations**! In this step-by-step guide, I'll show you how you can create your own unique floral wreath with little effort and lots of fun, which is guaranteed to turn heads.

Decorative flower wreath with miniatures: how to decorate your individual wreath

Step 1: Prepare the decorative fence

First, cut the decorative fence to the right size so that it fits harmoniously into your wreath. Optionally, you can paint the decorative fence to give it an individual touch - pastel shades or natural colors are particularly popular here. Once the paint has dried, attach the fence to the wreath using hot glue. Make sure that the glue adheres well so that the fence stays securely in place.

Step 2: Design the clay pots

Paint the top edges of the small clay pots with a color of your choice. These accents will give your wreath a cheerful and inviting atmosphere. Allow the paint to dry before stacking the clay pots on top of each other and securing them with hot glue.

Step 3: Place the gypsophila

Now cut the gypsophila so that it fits perfectly in your prepared clay pots. These delicate flowers create a romantic flair and are a wonderful addition to the miniatures. Stick it carefully into the terracotta pot.

Step 4: Attach the pot

Take the small jug and attach it to your wreath using wire and a little hot glue. The wire provides additional stability, while the glue holds the jug securely in place. Make sure that the jug is shown off to its best advantage and is not covered.

Step 5: Add further decorative elements

Now you can attach any other decorative elements you have planned to the wreath using hot glue. Whether miniatures, flowers, beads or other creative accessories - let your creativity run wild and design your wreath to your taste.

Step 6: Attach the hanging ribbon and butterflies

Finally, attach a pretty hanging ribbon to your wreath so that you can hang it up decoratively in your home. For the finishing touch, attach delicate butterflies - they give the whole arrangement a lightness and a touch of spring freshness.

A self-made wreath is a wonderful decorative element that you can use all year round. Whether for your own living space or as a personal gift - the possibilities are endless! Browse through our online store to purchase the materials you need and start your craft project straight away. Have fun creating your individual flower wreath!
