Anchorage table decoration

Instructions No. 3639

Difficulty: Beginner

Working time: 2 Hours

With just a little effort, you can quickly create a maritime decoration with anchors, lettering and indirect lighting - a stylish eye-catcher for your home or as a gift.

Create an anchor

The basis for this craft idea is the VBS "Anchorage" wooden lettering. This consists of the large "Anchorage" lettering with an anchor and a single wooden anchor.

First decide whether you want to glue the anchors on top of each other for a 3D effect or whether you want to place them in different places to create a 3D effect. Paint one or both anchors with craft paints and use a Posca marker to add a dot as a seagull's eye.

Prepare the tray

Prime the tray with white handicraft paint. Let the paint dry thoroughly.

Attach the lettering

If you want to place the second anchor separately, as in our idea, stick it to the lettering with hot glue. This will give the two wooden parts better stability.

Tip: add a chain of light for indirect lighting by also attaching it with hot glue.

Glue the lettering to the prepared tray and press it down firmly.

Complete the decoration

Sprinkle colored sand and shell granules on the tray. Arrange driftwood and shells on top to create an authentic beach look.

Attach the fishing net ribbon to the edge of the tray to complete the nautical theme.

Your own maritime work of art is finished. Check out our online store to find all the nautical craft materials for your creation. Let your imagination run wild and get started today!
