Anleitung: Duftende Lavendelseife

Instructions No. 983

Difficulty: Advanced

Working time: 15 Minutes

Immerse yourself in pleasant bathing dreams. This soap with lavender flowers unfolds its aroma little by little and immerses your bath in a temple of wellness. The soothing scent of the essential oils makes you forget the world around you in a relaxed manner.

And it's as simple as that:

Melt the casting soap in a bain-marie. Make sure that the soap does not boil but only is warmed up. Pour the liquid soap into the moulds and sprinkle lavender flowers. The quantity depends on your taste. Let the soap cool down and remove it from the mould. Decorate your pieces with the Lavender Pick or Ribbon, for storage and give away with small cellophane wrappers.
