Anleitung für einen Stoffkranz

Instructions No. 814

Creative & self-made - very easy with our new spring-fresh trend fabrics!

Here's **how it works**

Cut the may-green Cotton fabric into wide strips with the serrated scissors, wrap them around the Polystyrene ring and pin the folded end tightly with roman-style sticks on the back. Also use the pinking shears to cut two equal 10 x 10 cm hearts from the different fabrics in the fabric packages

Tip: The serrated scissors prevent the cut edges from fraying.

Place two identical hearts left to left and sew them together with a coarse tack stitch. Leave a small opening and pad the hearts with cotton wool. Now you can close the seam. Sew a button in the middle of each heart and add white Lace ribbon or Lace-check ribbon bows for individual hearts. Now fix the finished hearts close together with hot glue on the Polystyrene ring and leave a slightly larger gap for a loop in one place. You tie the loop from the cream-coloured Lace ribbon and put on this still another from the Lace-check ribbon on which you have fixed buttons before at the end. Now you can attach the bow to the wreath with roman stickers and finally place a button with some hot glue. On the back of the ring, attach a Roman hanger behind the loop.

Must Have

Polystyrene ring flat (Roman), Ø 30 cm

Diameter (outside): 30 cm
Material: Polystyrene
