

Bastelanleitung: Tischdekoration mit Weidenherz

Instructions No. 1084

🔪🔪🔪 Difficulty: Beginner

This table decoration fits perfectly with the Pastel-country house trend. The willow heart and the large flowers are in country house style. The decoration combined with the trend colour Violet is a must for spring.

And it's as simple as that:

Which handicraft material do I need for the table decoration with willow heart?

Basic material for this handicraft are the willow heart, a glued wood board and a round wood with a diameter of about 1 cm. The willow heart is decorated with VBS Hobby Color Color in white and Grey, Napkins, a color-coordinated flower pick and ribbons. A drill, scissors, hot glue, Napkin varnish and brush, a side cutter and binding wire help with this.

How do I make the table decoration with the willow heart?

After the glued wood panel has been glued with VBS Hobby Color color in white and the round color in Grey are primed, a hole (Ø 11 mm) is drilled in the middle of the plate. The napkin motif is now cut out and glued in the middle of the plate with Napkin technique. After the Napkin has dried, wipe around the motif with a damp Paint sponge and some grey colour shades. With hot glue you can fix the round wooden stick in the hole of the plate.

The willow heart is decorated with single flowers of a flower pick and small bows. Tie the pink ribbons to the loop and fix it and the flowers with hot glue on the willow heart. Finally, fix the remaining picks to the wooden board with hot glue and the willow heart to the round timber with binding wire.
