Bento bread bag

Instructions No. 2030

Difficulty: Beginner

Working time: 1 hour 30 Minutes

This homemade bento utensil holder is a great way to store bread and rolls. Sewing this trendy origami-style fabric basket is really easy.

Practical sewing idea for beginners

Fabric cut

First, download the template for fabric cuts. You will need a piece of fabric measuring 20 x 60 cm in total, excluding seam allowances. Using a Strich-Ex pen, trace the printed 20 x 20 cm template (marked A) three times side by side onto your fabric and mark out the seam allowance as shown in the small diagram (B). Cut out the fabric. Overcast the fabric edges to prevent them from fraying.

Food-safe fabric waterproofing

To ensure the fabric is protected against dirt and is food-safe, there are two ways to waterproof it:

One option is to sprinkle the fabric with natural beeswax pellets. Place a sheet of baking paper over the top and iron the wax in to form a protective layer.

An alternative is to brush the fabric with TexWax. Use a brush for this. Once the fabric has dried, ironing it transforms the waterproofing fluid into a reusable, breathable film.

"Origami Folding"

To help you understand the steps, it might help to test folding with a piece of paper first

Divide your piece of fabric by small markings or into Needles three equal fabric squares. Place it in front of you with the right side (printed side of the fabric) facing up so that you have the seam allowances as shown in figure

(B)

Fold the fabric corner from top left to bottom right diagonally to the bottom right corner of the left fabric square. The underside of the fabric is now at the top at this point. Fix the fabric with Needles.
Now fold the fabric corner at the bottom right diagonally to the top left corner of the right fabric square. Secure this fold with Pins.
Finally, fold the right half of the fabric diagonally from right to left along the middle dotted line. This way you already have the shape of the bag

If you sew the fabric together at the narrow seam allowances, you will already receive your bag. The fabric is also folded at the wide seam allowances. Once you've neatly hemmed the edges, your Bento bag is ready to be turned inside out

You want a pocket handle?
Sew two strips of fabric of 6 x 8 cm each to form small tabs. Cut 6 Jute yarn-pieces of 80 cm each. Pull the Jute yarn-strands through both flaps. Knot the skeins on the pocket tips and pull the flaps over them, thus covering the knots.

Must Have

Cotton fabric "Gull"

Motif size: 2.2 - 3.5 cm
Fabrics by the meter
Grammage: 150 g/m²
Width: 150 cm

19,99 € (1 m2 = 13,33 €)
