

Blumentopf mit verspielten Ranken im Landhaus-Stil

Instructions No. 988

The country style pots can be made in any size. The pastel-coloured look and the squiggly vines complement the romantic lace. You can use these pots from Terracotta to store your herbs in the country house kitchen or, thanks to the clear lacquer, to decorate your garden table.

And it is as simple as that:

Apply Clay sealant inside the pot and let it dry. Prime one pot on the outside in pastel olive green and one in Orchid-colour and on the inside in white. Let the paint dry. Stamp on the motif and accentuate with the brush and white paint. Accentuate the edges by dragging the Ink Pads over the edges. Seal the pots with the Clear varnish and let it dry. Glue the tip to the upper edge of the pots with effect glue.
