Working time: 30 Minutes

DIY cards with a touch of fluffiness!

These cards are a creative way to spread joy and add your personal touch at the same time. Whether for birthdays, weddings or births - the handmade cards are guaranteed to put a smile on faces.

This is how you design the cards:

The first step is to place your desired silicone stamp on an acrylic block. Dab the stamp into the ink pads and press it onto the white back of a piece of paper from the **Paper"Dots" set**.

Cut this to size using the **VBS contour cutter**. Then cut another Paper, slightly larger. Glue the small piece onto the larger one using 3-D glue pads . Place this on the card to see where you like it best. Use the pompoms to arrange a motif of your choice on the remaining space and stick the pompoms onto the card using handicraft glue .

Finally, stick your stamped "banner" onto the card using 3-D glue pads .

Tip: You can draw any motif thinly with a pencil.
