Christmas Advent Wreath

Instructions No. 4132

Difficulty: Beginner

Working time: 45 Minutes

With a **fir wreath**, you can create an **atmospheric Advent wreath** for your table or sideboard in no time. By crafting and decorating, you can combine fir greenery with candles, figurines, and sparkling accents to create your own personal Christmas look. Ideal for beginners and perfect for making your home feel warm and inviting.

Decorate an Advent wreath made from fir

Step 1: Place the candle holders in the wreath. Lay the fir wreath flat on your work surface and start by placing the candle holders in position. This will help you determine the layout of your Advent wreath right away and ensure that everything looks harmonious later on. Make sure the holders are stable and evenly spaced so that the candles stand securely in the end and the wreath has a calm, balanced look.

Step 2: Prepare the poinsettia Use the side cutters to cut a few blooms from the poinsettia. Side cutters are small pliers designed for cleanly trimming wire and plastic stems—they give you neat cuts that are easier to work into the wreath. Trim the stems so that the blooms lie flat and fit well between the fir branches.

Step 3: Arrange and Secure the Decorations First, place the blooms, " scatter decoration, " small figurines, and bells loosely on the wreath. Once you're happy with the arrangement, secure everything with hot glue. Hot glue adheres particularly well to pine greenery because it sets quickly and secures the pieces reliably. Press each element down briefly so that it "anchors" itself in the branches and doesn't slip when moved later.

Step 4: Place the candles and make final adjustments Finally, place the candles on the candle holders. Check to make sure no decorations are too close to the candles so that your Advent wreath remains secure and the floral arrangement looks its best.

Step 5: Fine-tune for a harmonious Advent look Slowly rotate the wreath once and inspect it from different angles. You can fill in small gaps with additional decorative accents or slightly reposition individual elements until the composition looks balanced. The result is a decorative fir wreath that looks just as good on a table as it does on a sideboard.

If you're looking for even more ideas on decorating Advent wreaths and fir wreaths—as well as the " christmas decoration " trend at floristry-—you'll find the perfect craft supplies and fresh inspiration for the holiday season in our online shop.
