

# Christmas baubles with textured paste and gold leaf

Instructions No. 3136

Difficulty: Beginner

Working time: 2 Hours

Crafting is not only a creative break from everyday life, but also a wonderful way to create personalised decorations. In this tutorial, I'll show you how to create **festive tree baubles using leaf metal and structure paste**. These sparkling baubles will make your tree an absolute highlight! Let's make your crafting skills shine together!

## Step 6: Design with structure paste and concrete colour

Now remove the crêpe paper. For an unusual surface structure, apply structure paste to the balls. Use a spatula or bristle brushes, depending on which effect you prefer. You can then colour the desired spheres with Beton Color. Time to dry: allow the balls to dry well again before working on them further.
