Christmas Fur Minis

Instructions No. 2426

Difficulty: Beginner

Working time: 30 Minutes

Small but mighty - In our instructions, we show you how you can easily make **Christmas figures**. With a **faux fur ball** and **scatter pieces**, you can create cute reindeer and snowmen. Try it out right away!

This is how the cute figures are made:

For a standing reindeer:

First drill holes in the **bark stand** with a drill. Fix the metal stand in the holes with hot glue.

Use the **awl** to poke two holes in the **fake fur ball**, apply hot glue and press the ball onto the metal stand.

For a moose, we cut a piece of **cord** and attached a clamp to it. Now glue the cord to the back of the scatter piece.

Then use hot glue to stick the **reindeer head, buttons, bells, pompoms** or other other **accessories** to the faux fur ball.

Add accents to the bark stand with the **Deco Snow Liner**.

Snowman:

First, decorate the **tree slice** with **decorative snow**.

Use hot glue to stick a **snowman's head scatter** onto the **fake fur ball**, as well as small **wooden beads** as buttons. When dry, glue the snowman onto the tree disc. Place a **fir tree** next to it.

Reindeer pendant:

First cut ribbons of different lengths from the **cord**. These will later represent the arms and legs.

Attach a **clamp** to each end of the cord and glue the ribbons to the VBS **faux fur ball** with hot glue.

Also glue the head and the clamps with hot glue.
