Christmas wrapped in winter motifs

Instructions No. 1034

Difficulty: Beginner

Working time: 20 Minutes

Small packages in the winter time can but do not have to be Christmassy. This template set shows you that you can also redesign simple motifs as packaging to suit the occasion.
You can make the Christmas tree wintery, natural or as a Christmas tree. Also the house offers you the most varied possibilities and if you ever wanted to give away a Voucher and wondered how you could wrap it stylishly, the little bag can be designed as a money bag.

And it's that easy:

Put the desired Stencil from the set on a Motif cardboard and draw the outlines. Cut out the contours with the **scissors** .

Fold the Stencil at the given fold edges and glue the **double-sided Adhesive tape** onto the adhesive hubs. Now you can glue your packaging together and erect it. Depending on Stencil you can punch holes in the top edges and apply a satin ribbon

If you like, you can decorate the little boxes as you like. For this purpose, Adhesive tape is also suitable for attaching motifs.

Must Have

Creative stencils "Bella", set of 3, gift boxes, Bella

Number of parts: 3
Material: Plastic
