

Creative bag advent calendar

Instructions No. 2926

Difficulty: Beginner 

Working time: 4 Hours

Still looking for inspiration for your next advent calendar? Then we have just the thing. This bag advent calendar is very easy to make and will make everyone very happy.

First, stick a sticker with the numbers 1 to 24 on all the VBS "Button" wooden clips so that you can see which bag can be opened on which day.

Then design the individual kraft paper bags. You can use the VBS craft set "Natural Harmony", the satin ribbon "Uni", the glitter stickers "Stars", the Washi Tapes "XMAS Berries" and the VBS scatter set "Rocking horses". You can decide individually what you want to use and in which combination. On the instruction picture you can see which combinations we chose.

After all 24 bags have been decorated, they can be filled with small gifts and presents.

Finally, close the kraft paper bags with the matching wooden clips. The bag Advent calendar is ready and the waiting time can be shortened.
