

# Design Bambs Cup

Instructions No. 2124

Difficulty: Beginner 

Working time: 4 Hours

A warm coffee or tea is a part of every morning. In this instruction we show you how to decorate your to-go mug with self-designed banderoles made of jute fabric, which also serve as heat protection for your hands.

Cut pieces of jute fabric and carefully burn the edges with a lighter. Place the templates on the fabric and transfer the motifs with the textile pens.

With the stamp carving set you can create stamps according to your personal taste. Apply the textile paint to the stamps with a brush and carefully press them onto the fabric.

Sew the banderoles and the coffee bag at the sides. Close the coffee bag with a piece of cotton string.
