Door wreath in natural look

Instructions No. 3247

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Are you looking for a timelessly beautiful welcome on your door? Then this door wreath made of metal rings in a natural look is just the thing for you. Let yourself be inspired and personalize your home with your own decorative wreath!

Start by painting the wooden "Welcome" hanger with white handicraft paint . The paint gives the hanger decorative visual accents. Once dry, seal the surface of the wooden pendant with protective acrylic varnish.

Take VBS Paper Raffia and wrap it around the metal rings. Secure the start and end threads with handicraft glue, so that everything wrapped around is held securely. The raffia gives the rings a natural look.

Tie eucalyptus-twigs to the metal rings with wire. These give your project a natural beauty.

Now place the two metal rings on top of each other. This will give your decoration a beautiful three-dimensional effect.

Cut a piece of raffia, pull it through a needle and thread it through the wrapped raffia of the rings. This gives you a stable suspension for your hanger.

Place the "Welcome" lettering on the rings and secure it with wire. This way, it is well secured in the right place in the decoration.

Now you just have to arrange a personal work of art only in your entrance area.

Have fun shopping and making your own!

Must Have

VBS Raffia, Cream

Weight: 50 g
Length: 60 m
Width: 3 cm
Material: Natural material

2,49 € (1 kg = 49,80 €)
