Easter bunny card with die-cut circles + ovals

Instructions No. 2990

Difficulty: Beginner

Working time: 45 Minutes

Would you like to make someone happy at Easter? Then our card with a **cute Easter bunny** is just the thing. It is made up of **punched-out circles and ovals**. The highlight is the **velvet paper**, which gives the bunny soft ears and a velvety tummy.

How to make a great Easter card:

Cut out the **velvet paper** of your choice in a format that is slightly smaller than your card and then stick it onto the **folded card**.

Then punch out **circles and ovals**. For the bunny, you will need large circles and ovals made from a **coloured paper** in the color of your choice. The inside of the ears and the little belly of our bunny are made from small circles and ovals made from self-adhesive velvet paper. You can simply peel off the foil on the back and then stick on the

velvet parts. Glue the bunny together, decorate it with the florets and the bow. Finally, use a fineliners to draw on the face.

Create the tags from white **cardboard** and the **VBS silicone stamps** (here "stay POSITIVE" and "be happy"). Now use 3D glue pads to stick the bunny and the tags onto the card.
