Easter eggs wrapped with fabric strips

Instructions No. 462

Difficulty: Advanced

Working time: 40 Minutes

With a few simple steps you can transform white Polystyrene-eggs into exclusive Easter decorations **in country house style**. The fabric strips are wrapped around the shapes at only and fixed with Pins - very simple and very effective.

Here's **how it works**

Cut stripes of the different fabrics about 6 cm wide.
Pin a strip of patterned fabric wide on a tip of the egg, fold the edges inwards and wrap the strip irregularly around the egg, fixing it with decoration-Pins
Then work in the same way from the other side, then wrap the remaining free area in the middle with plain fabric. This will cover the edges of both pattern fabrics.
Now fix the transitions between the different fabrics with Deco-Pins so that no Polystyrene is visible anymore.

Finally, spread satin scattered roses with simple Pins on the egg.

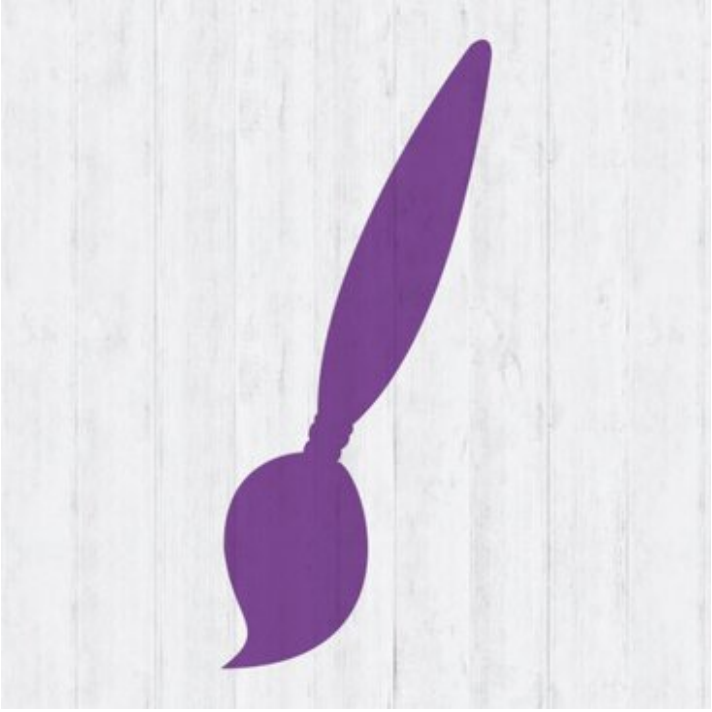

Dear sewer, as fabrics are seasonal goods and we always want to have trendy fabrics in stock for you, it can happen that the sewn fabric is no longer in our range.

In our fabric section you will find a large selection of great fabrics. Click **here** to discover **all the fabrics**.

This idea is timelessly beautiful!
