Easter plate with glass engraving

Instructions No. 1924

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Spring is in the air - with this decoration you can already welcome spring into your own four walls! Placed on a chest of drawers, the windowsill or a table, this decorative plate will put you in a good mood.

Use the **Strich-Ex pen** to write the desired font or motif either freehand or with the help of a template on the glass. **Tip:** If you are working with a template, you can glue it to the plate from below, so that the lines can be painted easily. Trace the lines with the **engraving pen** until the desired engraving intensity is reached.

Using a **sponge**, apply **Stardust** in two or three layers to the underside of the plate with dabbing movements. It is important that the paint must always be completely dry before the next layer of paint is applied. Paint the **Polystyrene eggs** first in any **colour and** then **accentuate** with Stardust.

Arrange the eggs on the plate together with **Iceland moss** and **sprinkles**. Once Easter is over, the colored eggs can be replaced with flowers or plants.

Must Have

VBS Glass plate, square

Length: 25 cm
Width: 25 cm
Material: Glass

3,99 €
