# Felted tealight glasses

**Instructions No. 2035**

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Our idea with the **tea light glasses** looks cuddly and gives off a beautiful light. This decoration is not only something for the winter time, but also nice to look at on the terrace or balcony. With a few simple steps and a bit of skill, these great light sources are easily made.

## This is how the cozy glasses are made:

Cut off a little of the two colours of **fairy tale wool** and place them on top of each other so that they meet in the middle and lie a little on top of each other. The amount of colours should be about the same. Now use the felting needle to felt the wool on the mat. This creates a felted plate

Mix the **Mega Filzer** with water according to the instructions. Now brush the fairy tale wool with the mixture (best in a small tub or bowl). Turn yours felt mat over and also brush it on the back. Now use the felt mat "Special" for a different purpose by brushing with the mat from the middle to the bottom or if necessary on top. This will give you a nicer colour transition

Rinse the **felt mat** with clear water and wring out the water by pressing lightly. To get even more water out of it Felt , rub it against the burl foil. Now you suck up the water on both sides with a cloth. Then blow dry all finished mats.

Fix the mats with double-sided Adhesive tape to the **tea light glasses.** Simply cut off the protruding ends with scissors.
