

Festlicher Deko-Baum in Naturfarben

Instructions No. 1028

This Christmas tree combines noble glass baubles with self-made Fröbel stars in harmonious brown tones. It gets its festive shine from the filling of the baubles with shimmering flower hair and the traditional decoration with fir branches.

You can use this extraordinary Christmas tree as a table decoration as well as beautifully integrated into your Christmassy Window decoration .

And it's that easy:

Fill some of the Flowerhair into the balls and seal them. Make the Fröbelstern according to the instructions included in the package. Cut off some of the long fir branches and tie the top of the branch to the base of the tree with some Flowerhair and check ribbon

For safety you can fix everything with hot glue.

Bend the branches decoratively upwards.

Carefully tie the glass beads with the check ribbon in the tree and tie a bow with the overhangs.

Wrap the remaining fir branches decoratively in the tree and fix the Fröbelstern with tape-Ribbon at different places on the metal frame of the tree.
