Fruit etagere illuminated

Instructions No. 2524

Difficulty: Beginner

Working time: 10 Hours

Are you looking for an **unusual decoration idea**? You've come to the right place with our great **fruit**. It is **illuminated** with fairy lights and looks great in the dark as well as in the light.

An eye-catcher in the light and in the dark!

This is how the fruit is arranged:

You will need the following acrylic moulds for the different types of fruit:

Acrylic drop = pears

Acrylic ball, 10 cm = apple

Acrylic ball, 4 cm = cherries

Acrylic egg, 8 cm = plums

Acrylic hearts, 6 cm = strawberries

Tear the respective **straw silk** into small pieces. Use **napkin varnish** to stick them into the **acrylic shapes**. Allow to dry. Any excess can be cut off with scissors.

For the strawberry, paint seeds onto the dried straw silk with a yellow **Posca marker**. Remove the wire from the leaves and stick them to the shape with craft glue.

Add a string of lights to any shape. Either set the timer on the **fairy lights** and put the whole fairy lights in the mould or put the wire in the acrylic mould and glue the coated part of the fairy lights to the back of the fruit with hot glue.

Cut the **paper wire**, paint it with the brown Posca marker, twist it together and attach it as a fruit stem to the eyelet of the corresponding acrylic mould. For thicker fruit stems, twist several wires into each other.

Attach **leaves** with the wire or with craft glue. Place the fruit on the **etagere** with UHU Patafix.
