Funny Styrofoam Chickens

Instructions No. 1724

Difficulty: Beginner

Working time: 30 Minutes

Don't these comrades look funny? They are quick and easy to make and can also be made together with children. So your Easter decoration will definitely be original!

First of all, prime the and Polystyrene balls eggs with white so that they are Handicraft paint, evenly white and cover the unevenness. Let the whole thing dry well. In the meantime, you can download and print the template. Transfer the cut out pattern twice to the white foam rubber plate for the wings and three times to orange for the feet Foam sheets and as a comb.

Fasten the eyes, wings, feet and combs to the - or eggs with hot glue. Optionally you can add small details like cylinders and bows as a bow tie with some hot glue

Chop chop chop..ready are your chickens!
