

Glaszylinder mit gravierten Schneeflocken

Instructions No. 420

An old handicraft, which thanks to modern tools is easy to learn today even for the hobby artist - glass engraving turns simple everyday objects into valuable unique pieces. With a little practice you can embellish the simple glass cylinder with filigree snowflakes and create a unique light object. A hobby with many facets that everyone can learn - crystal clear!

Extra tip

For engraving I put the round glass cylinder on a cushion, so I can work comfortably.

This idea is timelessly beautiful!
