Use the motifs of the silicone stamp "Forest animals". Stamp the little trees on green paper, foxes and hedgehogs on brown, then simply cut out these motifs for sticking on the cards. Or stamp directly onto the greeting cards - according to your personal taste.

Motifs such as forest animals or birds from 3D punching sheets or punched with punching machine and template you can easily create small image reliefs on the cards with 3D adhesive pads.

Combine the elements on each card anew, so all your self-made copies become unique.
