Hare plotting
Instructions No. 2129
-. D Difficulty: Beginner
© Working time: 30 Minutes

Decorating for Easter is a joy. And that's where our bunny pins come in. They can be wonderfully integrated into an Easter flower arrangement or make the recipient happy on a gift.

We have created these beautiful bunnies for you as a unique motif template, which you can easily download free of charge as a file and transfer to the plotter machine. The machine cuts out filigree motifs perfectly.

## This is how you create the cute bunnies:

Open the Silhouette file on Silhouette Studio. If you want to have the bunnies from different cardboards, copy the bunnies to an extra page. Check the settings and plot.

If you don't have a plotter machine available, you can alternatively print out the bunnies as a pdf and cut them out with a scalpel.

Stick the sticky wire to the backs of the bunnies with double-sided tape. Finally, glue on the pompoms.

Looking for more ideas for plotting?

We have more great ideas with the matching motif templates in our Ideas \& Instructions section. How about some enchanting butterflies or decorative Easter pendants?
