## Huhn »Gudrun«

## **Instructions No. 167**

Our chicken "Gudrun" is an "animal hip"

Light object from Acrylic forms. Many details, like the FIMO-Shapes, the guinea-Feathers fowl of the wings and the eyes, make the chicken come alive. Thanks to the integrated light chain "Gudrun" looks really good even when it gets dark.

For a detailed view of the manual including pictures please click on download manual and open the pdf.
