# Instructions for a "Off to the Beach Bag"

**Instructions No. 910**

Difficulty: Beginner

Let your creativity run wild and design your beach bag with the POSCA markers. Whether cheerfully colourful like our example or simple and elegant - the choice is yours. Create your own design and if you like, go into series production, we have more fabric articles in our assortment for you..

**And this is how it is done:**

First, wash the bag and let it dry.
Place a cardboard divider in the bag and draw circles with the compass on the bag, which you colour in with the POSCA markers.
When dry, outline the circles with the thin POSCA Marker.
Pull the lycra Ribbon long to get the right shape and knot it in an eyelet through which the drawstring of the bag runs.
To make threading the beads easier, cut the ends to a point and then thread the beads open. Help with the wooden stick and fix the beads with knots.
To fix the colours, iron the bag inside out, hot and without steam.

You will also need a compass to draw the circles.
