Kerzensand Arrangement

Instructions No. 2062

Difficulty: Beginner

Working time: 1 hour

In the Christmas and winter season the right lighting is an important part of decoration. In the dark season it simply cannot sparkle and shine enough. So our Christmas decoration bowl with candle sand is just the right arrangement for your home.

First paint the small decorative sledges **with Handicraft paint** in black and grey. The **fir trees** get their noble appearance from the shimmering **Stardust colour**. As soon as the colour has dried, the **miniatures** are arranged in the **bowl** and if necessary **fixed** with some **hot glue**.
With a white **Marker** you can **write** the word "Xmas" on the big black **Christmas ball.** Of course you can also write another desired word on the ball or paint a Christmas symbol on it. This is entirely up to your personal taste. The decorated ball is then **glued to a** sled with hot glue.
Now place the **candle wick** in the **bowl** and fill it with candle sand**.** Make sure that the wicks are not too close to the decoration parts because of the danger of fire. Finally, arrange **more foil balls in** the bowl.

Must Have

Candle sand, white, 1000 g

Weight: 1000 g
Material: Stearin

14,49 € (1 kg = 14,49 €)
