Macramé Bracelet with Cube Metal Beads

Instructions No. 1481

Difficulty: Beginner

Working time: 40 Minutes

With the small metal beads your knotted Bracelet looks especially delicate.

And this is how we knot

For this filigree Macramé-work you need 3 waxed cotton cords of 60 cm each. Two of these threads form the middle strand and the third waxed Cord is the knotting thread. This is knotted to the middle threads after about 7 cm.

Pull about 26 cube beads through one middle thread, let the second middle thread run next to the beads and fix each Pearl individually at Bracelet. with the weaver knot. This creates the nice delicate look of the ribbon. Once all the beads are "tied", place the initial thread of the bracelet into your knotting work from bottom to top and make another 3 cm with the weaver's knot. Draw a frosted Pearl on each end of the thread and knot it tight The Bracelet can be widened and tightened using this technique
