## Spooky Atmosphere in No Time: Create Your Own Halloween Tea Light Holders

As the evenings grow longer and darkness falls, Halloween is just around the corner. This is the perfect time to adorn your home with eerie lights. In this guide, I will show you how to create stunning Halloween tea light holders with minimal effort.

### Halloween Tea Light Holders - Instructions

#### Step 1: Making the Band

For the band, cut a rectangle from the mulberry paper measuring approximately 25.5 x 7.5 cm. If you're using a different lantern or need more paper for overlapping, adjust the width. At the end of the rectangle, apply the double-sided tape. Wrap the band tightly around the glass, remove the protective film from the tape, and secure it. If you find it challenging, you can also fix the band directly to the glass with tape.

### Step 2: The Decoration

To decorate your lanterns, you can use our template or craft your own designs. Make sure the size of the motifs fits the lantern. Transfer the templates onto the black cardboard and cut them out. You can completely adhere the motifs to the mulberry paper or partially so that some parts stand out.

### Step 3: Final Lighting

Finally, place the lit LED tea lights into the glass to instantly create a Halloween ambiance. This DIY decoration is not only simple but also a real eye-catcher.

Have fun spooking! :)
