Mother's Day heart with wool

Instructions No. 2145

Difficulty: Beginner

Working time: 2 Hours

A mother is very happy when she receives a little something from the **heart** on her day of honour. Our idea is easy to implement and you do not need many materials. With our free **template** and a little help, the idea can be implemented even by the smallest children.

This is how the heart is made:

Print out the **template** and cut it to size. Transfer the hearts to the corrugated board blank and cut them out again.

Fix the beginning of the wool to the **cardboard** with some **craft glue**. Now wrap the wool around the heart until nothing more of the cardboard is visible. Fix the end again with craft glue.

Knot a loop in the end of the thread. Punch out motifs from the photo cardboard using motif punches, label them with your favourite saying and stick them to the wool hearts with craft glue.

Must Have

Wool "Lisa", Red
