

# Moulding candlesticks with houses

Instructions No. 3097

Difficulty: Beginner

Working time: 2 Hours

Have you ever wondered how you can make beautiful **decorative bowls and houses** yourself? With our step-by-step instructions, we'll show you how to conjure up great works of art using **Raysin casting** compound and craft paints. The home-made creations are not only perfect as gifts, but also add a creative touch to your own four walls.

Our instructions will guide you through the entire process, from preparing the modelling clay to the final decoration. Your next craft project will be a complete success!

Paint the edges of the bowl or the sides of the heads with emerald craft paint. Apply about three coats of paint to achieve an evenly covering layer of colour.

### Step 7: Stamp the silk paper

Stamp a piece of silk paper to your liking. Place it right side up on a candle.

Wrap a piece of baking paper around the candle, pull it tight and carefully work the surface with the embossing dryer. The wax will begin to melt slightly and cover the silk paper.

Leave the candle to cool briefly and then carefully remove the baking paper.

### Tip: Customise the candles

If your stick candle is too large in diameter, you can adjust it with a candle sharpener. To ensure that the candle stands firmly in the decorative bowl, place a small wax sticker on the bottom of the casting mould.

Are you ready to start your craft project? With just a few clicks, you have everything you need for your own works of art - from Raysin casting compound to high-quality craft paints. Let your creativity run wild and create something unique!

## Must Have

[Silicone casting mould "Candle holder" incl. insert, Oval](#)
