Natural felt cones

Instructions No. 433

Difficulty: Advanced

Working time: 50 Minutes

Almost like real cones these large specimens look like they Felt. are made up of different sized blanks and thus get a lifelike form. The finished cones look especially pretty when they are Natural materials decorated with Wooden discs different ones.

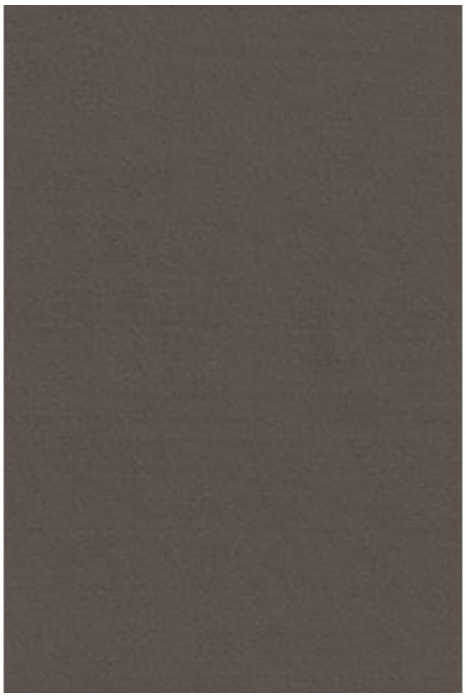

Instructions

Use the template to make several templates, each of which varies in size by a few millimetres (approx. 5%). Fix them with Pins on the white and the brown Felt and cut out a sufficiently large number. You need the same amount of brown and white blanks.

Now you put the blanks staggered on top of each other - always a brown and white one of the same size together - so that the typical cone shape is created, i.e. you start with a medium sized blank, then use some larger and towards the top again smaller blanks. To fix the cones, sew them all together. Start at the bottom, sew the individual elements together, thread a wooden bead on top and sew back down again just beside it. At the bottom, knot the thread tightly and cut off the ends briefly.

You can fix the finished cones on large bark discs and decorate them with Natural materials . <

Must Have

VBS Craft felt, 20 x 30 cm, Mouse Grey

Length: 30 cm
Width: 20 cm
Thickness: 1.5 mm

0,65 € (1 m2 = 10,83 €)
