

Nautical decoration with paper boats

Instructions No. 1985

🔪🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 30 Minutes

Classical paper boats become a great maritime decoration scene here - a special eye-catcher in the home. This decoration is also an excellent gift idea for maritime fans.

Folding paper boats

Can you still remember how simple paper boats are made? Are you out of practice? Test the folds with a sample sheet

This is done by folding a rectangular piece of paper in half, folding two corners so that they meet exactly in the middle, creating a paper point. The two lower corners of the untouched paper edges are folded up, at the corners they are folded around the paper tip. The resulting paper bag is now pulled apart and re-folded "crosswise", those of the paper bag base are pressed to the new tip. Afterwards the paper shuttle only is still pulled apart! Please also see our step-by-step diagrams below in this manual.

Use papers of your choice for your nautical boats, fold them in different sizes.

Make a pennant chain

Stamp Paper the letters Waves, cut out small pennants and stick them on a piece of paper cord. Make sure that this piece is long enough so that it can be wrapped around the glass at one end and around the decoration stand at the other end.

Decorate with Paper

Paint the base of the wooden stand in turquoise colour.

As the paint dries, cut out small nautical motifs from the printed scrapbook-Paper., which also contains messages that can be used for decoration

Cover the neck of the lantern with a Paper strips. double-sided Adhesive tape adhesive. Fill the glass with colored Sand and put little boats on them. Wrap the paper cord around it and Wind light, fix it with a knot or glue. Wrap the other end around the wooden stand

Arrange and stick the selected Paper accessories on them and decorate your handicraft with more paper boats.

Folded step by step

Folding little paper boats is great fun for young and old.

1. Step
Fold rectangle in half
