

Outdoor light chain

Instructions No. 1799

Difficulty: Beginner 🍃🍃🍃🍃

Working time: 45 Minutes

Who does not love to spend mild summer nights outside in the garden. What should not be missing is a cosy lighting. This light chain is especially suitable for outdoor use and even has a practical timer. With colourfully painted Terracotta-pots, the whole thing becomes an absolute highlight in your garden!

You can decorate the pots as you like with **Handicraft paint** paint. Whether with filigree patterns, with lettering or completely in one colour - whatever you like is allowed! You can look for suggestions and templates on the Internet and paint them on **the** clay pots with a pencil. Let the colours dry well

Cut from the **Felt** Circles corresponding to the diameter of the from bottom of the pot. With a pointed object you make a small hole in the middle of the felt. Glue the circles with a little **Handicraft glue** into the inside of the pot

and insert the **outdoor light chain** from above. Finally, **fix** the light chain from the inside with a little **hot glue** and you can hang the summery eye-catcher in the garden.

Must Have

[VBS Outdoor Mini LED light chain, with timer 6/18 hours, 20 LED's](#)

● **4,99 €**
