Instructions No. 3390

Difficulty: Beginner

Painting porcelain made easy with the eddingporcelain brush pen
The edding porcelain brush pen gives you the opportunity to create personalized works of art on your new porcelain items.

flower

What is the edding porcelain brush pen?

The edding **porcelain brush pen** is the ideal tool for conjuring up creative designs on porcelain, glass and ceramics (ovenproof and glazed). On the one hand, it can be used to apply paint evenly and precisely as a pen, and on the other hand, thanks to the flexible tip, it is ideal for artistic painting of the paint like a brush. Therefore, you can create both fine details and flat patterns with a variable line width between 1 - 4 mm. The colors are rich and can be applied creamy so that they do not run.

The brush pen is ideal for decorating dishes, vases, cachepots or even food bowls - perfect for pet owners who want to give their pets their own personalized bowl. At work, labeled dishes will get your coffee safely through the morning.

Materials required:

To get started, you will need the edding porcelain brush pen and something suitable that you would like to design. You will achieve the best results on objects with a white or light-colored background.

Instructions for designing with the edding porcelain brush pen:

1. Clean the surface of the porcelain thoroughly to remove dust and grease.
2. Start your design, let your imagination run wild!
3. Leave the painted piece to dry for 15 minutes and preheat the oven to 160°C.
4. Bake the paint on the porcelain in the oven for 25 minutes. The painted porcelain is then dishwasher-safe and the motif is permanent. After the oven, it is microwave-safe.

Don't forget to store the pens horizontally after use.

Extra tips for painting porcelain:

- If areas of paint overlap, allow the paint application to dry before applying the overlapping paint.
- Avoid painting areas that come into direct contact with food, as the colors of the porcelain brush pen are not food colors.
- Accidental mistakes can be corrected with a damp cotton bud before baking.

Must Have

edding 4200 Porcelain brushpen, Apricot Nude

Line width: 1 - 4 mm
