Romantic wooden frame

Instructions No. 1974

Difficulty: Beginner

Working time: 1 hour 30 Minutes

With **Motif straw silk** many dreamlike and beautiful decorations can be realized. The fine papers are applied to many different surfaces using the decoupage technique. Our instructions show you how to create this **romantic frame in 3D-optics** for your home. This picture is an eye-catcher for your home.

This is how the frame is designed:

First prime all **wooden parts** in antique white so that the colours are brighter and more opaque. After drying, you can now colour the wooden parts

Now glue the **Straw silk paper** "birdhouses" with **Napkin varnish** on the rear wall of the frame. To do this, first coat the surface with the adhesive, place the motif on it and coat it again with adhesive. This way you can smooth it out at the same time. Roughly cut out the desired motifs from the "Rose Garden Straw silk paper " and stick them onto stamping Napkin glue foil**.** After drying, cut out these motifs and emboss them. To do this, trace the contours of the motif with the embossing pen and turn the motif onto the reverse side. Now **emboss** the surfaces with the stylus

As a last step you can **arrange** all the individual components on the **frame** and fix them with hot glue.

Must Have

3D wooden frame

Length: 35 cm
Width: 25 cm
Height: 3.5 cm
Material: Plywood

8,59 €
