## Rustic Willow Star with Felt Flowers

## **Instructions No. 432**

Difficulty: Beginner

Working time: 1 hour

A beautiful alternative to a door wreath is this double willow star. It is decorated with homemade felt stars, dried fruits and cinnamon sticks and brings the smell of Christmas into the house.

## And here's how it works

With the help of the templates, templates for the large and small **Felt-Christmas stars** are made from strong cardboard.

Cut out 6 petals per flower from white Felt, use a needle to alternately string a wooden bead and a petal on a stable thread and knot the ends of the thread together.

Now simply lay **two willow stars on top of each other**and connect them with wire. First decorate the
3D star with apple slices, orange slices and the
cinnamon sticks and then arrange the handmade
Felt-Christmas stars on the arrangement. Everything
can be easily fixed with hot glue.

Finally, a check ribbon is attached to the poinsettia as a decorative hanging.
