

# Schmuckes Ledertäschchen

Instructions No. 601

MP3 player, keys or change, in this small leather bag you have everything with you. Size, shape and colour can be chosen according to your personal taste and needs.

## And so it goes

Use the Strich-Ex pen to draw a curved shape on a matching piece of leather and cut out two equal parts, taking into account the flap on the piece intended for the back.

On the cut-out for the front part, mark the holes all around, leaving the upper edge free.

Punch through the holes with the large eyelet punch from the set, then place on the second piece of leather, mark the holes to match and punch through as well.

Place the two fabric tapes around the bag, fix them with lightning adhesive at the bottom and sew on with the imitation leather tape. Fix the ends of the leather strap on the back of the bag with super glue. In this way the two leather parts are joined together at the same time.

Make small slits for the magnetic closure and place the two parts under the flap and matching them on the front part.

Cut small circles out of leather, thread beads on enamelled copper wire and glue them on with the leather circles. In this way also cover the Bag closure one on the flap.
