Screw jar light decoration

Instructions No. 2630

Difficulty: Beginner

Working time: 1 hour

These small miniature light decorations are wonderful as a small gift during the Christmas season. Also in your own home you exude a warm light.

Craft fabric hood

First cut out Ø 11 cm circles from the fabric with pinking shears and iron them smooth. Place the stamp on the acrylic block, press it into the stamp pad and stamp in the center of the cut out fabric. We recommend cleaning the stamp you use with stamp cleaner afterwards.

Miniature world in a screw-top jar

First place a figurine and fir trees in the jar, fix them with some hot glue. Then add diamond snow to the jar. Once this dries, it will fix the miniatures as well. Put the string of lights in the jar so that the battery compartment stays outside.

Screw jar with fabric hood

Place the stamped fabric piece on the screw jar lid and tie it to the jar with a pretty cord.

Must Have
