Secret Santa scene in the frame

Instructions No. 3478

Difficulty: Beginner

Working time: 6 Hours

A Secret Santa door scene is not only only an eye-catcher, but also brings the magic of Christmas into every home. With these detailed instructions, you can create a **wonderful miniature world** that will delight young and old alike. The individual steps are easy to follow and will help you to create a unique piece of decoration. Let yourself be enchanted by the crafting world and discover the creative process behind designing your own **Secret Santa scene**. Make your home even cozier for the festive season and create a little wonderland that invites you to dream.

Transform your home with a magical Secret Santa scene in the frame

Building a stable frame

Start by creating your sturdy frame. Glue your wooden blocks together so that they form the desired depth, width and height. In our instructions, we have built a frame with 6 blocks in depth, 3 in width and 2 in height. Allow the

glue to dry thoroughly before continuing. Then place the finished frame on your photo cardboard, outline it carefully and cut out the cut-out piece. Then glue it to the back of the frame to form a wall.

Decorate the miniature fir trees and Christmas wreath

Take the miniature fir trees and wrap them with a decorative cord. Next, glue the tiny beads with VBS handicraft glue to both the miniature fir trees and the Christmas wreath. This will give them a festive sparkle and little details that will attract the attention of your guests.

Paint and arrange the furniture

Now design your miniature furniture according to your ideas. Use VBS Craft paints to paint the front door, table, letterbox and benches as you wish. Cut wooden spatulas into suitable pieces and stick them VBS handicraft glue to the roof above the front door. When the glue has dried, paint these with craft paints too VBS Craft paints.

Add decorative accents

I recommend attaching the letterbox next to the door and inserting a small letter into the letter slot. You can place other letters and parcels on the bench or under the miniature fir trees as you wish. Cut a small piece off a popsicle stick and stick it to the door to hang the door wreath there. Spread playing cards creatively on and under the table and arrange all the other miniature materials to your taste.

Use the magic of the miniature world

Let your imagination run wild and turn your Secret Santa scene into a unique work of art. At the same time, you have the opportunity to bring a bit of magic into your everyday life. Visit our online store to order all the materials you need and start your creative project straight away. Give your home a magical touch that will amaze you and your family during the Christmas season!
